SUBJECT INDEX

NOTE: Abstract Index follows Author Index

Abscess
Iris abscess as an unusual presentation of endogenous endophthalmitis in a patient with bacterial endocarditis, 228

Abuse
Correlation between retinal abnormalities and intracranial abnormalities in the shaken baby syndrome (letter), 745

Accommodation
Aging changes in apparent accommodation in eyes with a monocular intraocular lens, 432

Acute multifocal placoid pigment epitheliopathy
Acute multifocal placoid pigment epitheliopathy-like lesion as an early presentation of subacute sclerosing panencephalitis, 103

Acute occipital demyelinating lesion
Acute occipital demyelinating lesion appearing as an infarct on diffusion magnetic resonance imaging, 96

Acute syphilitic posterior placoid chorioretinitis
Corticosteroid-induced modulation of acute syphilitic posterior placoid chorioretinitis, 891

Acute zonal occult outer retinopathy
Are acute zonal occult outer retinopathy and the white spot syndromes (AZOOR complex) specific autoimmune diseases (editorial), 380
White spot syndromes of the retina: a hypothesis based on the common genetic hypothesis of autoimmune/inflammatory disease, 376

Adie’s pupil
Case of angle closure glaucoma caused by plateau iris and Adie’s pupil, 717

Adult-onset foveomacular dystrophy
Novel mutation in the RDS/Peripherin gene causes adult-onset foveomacular dystrophy, 213

Adult-onset foveomacular vitelliform dystrophy
Adult-onset foveomacular vitelliform dystrophy: a study by optical coherence tomography, 362

Age-related macular degeneration
Foveal congenital hypertrophy of the retinal pigment epithelium in the setting of geographic atrophy from age-related macular degeneration, 120
Is there an association between cataract surgery and age-related macular degeneration? Data from three population-based studies, 849
Macular translocation with 360-degree retinotomy for management of age-related macular degeneration with subfoveal choroidal neovascularization (letter), 748
Visual Function Index (VF-14) in exudative age-related macular degeneration of long duration, 206

Aging
Aging changes in apparent accommodation in eyes with a monocular intraocular lens, 432

Ahmed drainage implant
Ahmed drainage implant in the treatment of pediatric glaucoma, 821

Amaurosis
Ipsilateral globe penetration and transient contralateral amaurosis following retrobulbar anesthesia, 251

Anemia
Anemia and papilledema, 437
Treatment of anemia in the diabetic patient with retinopathy and kidney disease, 740

Anesthesia
Ipsilateral globe penetration and transient contralateral amaurosis following retrobulbar anesthesia, 251
Transient impaired vision, external ophthalmoplegia, and internal ophthalmoplegia after blepharoplasty under local anesthesia, 410

Aneurysm
Extensive dynamics in location, shape, and size of aneurysms in a patient with idiopathic retinal vasculitis, aneurysms, and neuroretinitis (IRVAN) syndrome, 118

Angiography
Anterior segment indocyanine green angiography in pterygium surgery with conjunctival autograft transplantation, 71

Angioid streaks
Photodynamic therapy using verteporfin for choroidal neovascularization in angioid streaks, 1

Angioma
Retinal angioma in a patient with Cowden disease, 400

Angiotensin II
Relation of diabetic macular edema to cytokines and posterior vitreous detachment, 321

Angle-closure glaucoma
See also Glaucoma
Case of angle closure glaucoma caused by plateau iris and Adie’s pupil, 717
Pilot study of lens extraction in the management of acute primary angle-closure glaucoma, 534
Uveal effusion and angle-closure glaucoma in primary pulmonary hypertension, 705

Aniridia
Use of glaucoma drainage devices in the management of glaucoma associated with aniridia, 155

Anisometropia
Surgical technique for control of postkeratoplasty myopia, astigmatism, and anisometropia, 807

Anterior chamber epithelial cysts
Surgical management of anterior chamber epithelial cysts, 309

Anterior segment
Anterior segment indocyanine green angiography in pterygium surgery with conjunctival autograft transplantation, 71
Iridociliary apposition in plateau iris syndrome persists after cataract extraction, 40

Antiphospholipid antibody syndrome
Antiphospholipid antibody syndrome in a six-year old female patient, 542

Aqueous humor
Increased interleukin-6 in aqueous humor of a patient with lung-metastatic intraocular adenocarcinoma, 237
Arthritis
Arthritis and uveitis in children: a pediatric rheumatology perspective, 879
Factors related to severe uveitis at diagnosis in children with juvenile idiopathic arthritis in a screening program, 757
Surgical management of cataracts in children with juvenile rheumatoid arthritis-associated uveitis, 772

Astigmatism
Myopic astigmatism and presbyopia trial, 628
Surgical technique for control of postkeratoplasty myopia, astigmatism, and anisometropia, 807

Asymmetric haptic fixation
Interlenticular opacification associated with asymmetric haptic fixation of the anterior intraocular lens, 106

Atopic eyelid disease
Topical tacrolimus treatment of atopic eyelid disease, 297

Autoimmune diseases
Are acute zonal occult outer retinopathy and the white spot syndromes (AZOOR complex) specific autoimmune diseases (editorial), 380
White spot syndromes of the retina: a hypothesis based on the common genetic hypothesis of autoimmune/inflammatory disease, 376

Axenfeld-Rieger syndrome
Family with Axenfeld–Rieger syndrome and Peters anomaly caused by a point mutation (Phe112Ser) in the FOXC1 gene, 368

Azithromycin
Azithromycin vs doxycycline in the treatment of inclusion conjunctivitis, 447

Bacterial endocarditis
Iris abscess as an unusual presentation of endogenous endophthalmitis in a patient with bacterial endocarditis, 228

Baylisascaris procyonis
Eye findings of diffuse unilateral subacute neuroretinitis and multiple choroidal infiltrates associated with neural larva migrans due to Baylisascaris procyonis, 888

Bimatoprost
Comparison of latanoprost, bimatoprost, and travoprost in patients with elevated intraocular pressure: a 12-week, randomized, masked-evaluator multicenter study, 688
Conjunctival hyperemia in healthy subjects after short-term dosing with latanoprost, bimatoprost, and travoprost, 314
Six-month randomized clinical trial comparing the intraocular pressure-lowering efficacy of bimatoprost and latanoprost in patients with ocular hypertension or glaucoma, 55, 921(letter), 922(letter)

Binocular summation
Impact of interocular differences in corneal asphericity on binocular summation, 279

Bleb needling
Transient, profound cataract associated with intracameral 5-fluorouracil, 101

Blepharoplasty
Transient impaired vision, external ophthalmoplegia, and internal ophthalmoplegia after blepharoplasty under local anesthesia, 410

Blindness
Magnitude and cost of global blindness: an increasing problem that can be alleviated, 471
Novel CACNA1F mutation in a French family with the incomplete type of X-linked congenital stationary night blindness, 733
Severe proliferative retinopathy progressing to blindness in a Japanese woman with Takayasu disease, 722

Blood flow
Reproducibility and clinical application of a newly developed stabilized retinal laser Doppler instrument, 356

Botulinum A toxin
Botulinum A toxin for restrictive myopathy of thyroid-related orbitopathy: effects on intraocular pressure, 427

Brimonidine
Paradoxical ocular effect of brimonidine, 102

CACNA1F mutation
Novel CACNA1F mutation in a French family with the incomplete type of X-linked congenital stationary night blindness, 733

Candida
Bilateral presumed endogenous Candida endophthalmitis and stage 3 retinopathy of prematurity, 747
Ocular involvement in children with candidemia, 886

Cataracts
Cataract after glaucoma filtration surgery, 231
Cataract after minor trauma in a young patient with an iris-fixated intraocular lens for high myopia, 890
Combined phacoemulsification, intraocular lens implantation, and vitrectomy for eyes with coexisting cataract and vitreoretinal pathology, 291
Iridociliary apposition in plateau iris syndrome persists after cataract extraction, 40
Is there an association between cataract surgery and age-related macular degeneration? Data from three population-based studies, 849
Randomized, clinical trial of multiquadrant hydrodissection in pediatric cataract surgery, 84
Self-administered health questionnaire for the preoperative risk stratification of patients undergoing cataract surgery, 599
Spondylo-ocular syndrome: a new entity with crystalline lens malformation, cataract, retinal detachment, osteoporosis, and platyspondyly, 681
Surgical management of cataracts in children with juvenile rheumatoid arthritis-associated uveitis, 772
Transient, profound cataract associated with intracameral 5-fluorouracil, 101

Central vein occlusion
Retinal endovascular surgery and intravitreal triamcinolone acetonide for central vein occlusion in young adults, 382

Cerebral blood flow
Reduced cerebrovascular blood flow velocities and vasoreactivity in open-angle glaucoma, 144
CHARGE association
Choroidal neovascular membrane associated with optic nerve coloboma in a patient with CHARGE association, 919

Child abuse
Correlation between retinal abnormalities and intracranial abnormalities in the shaken baby syndrome (letter), 745

Children
Ahmed drainage implant in the treatment of pediatric glaucoma, 821
Antiphospholipid antibody syndrome in a six-year old female patient, 542
Arthritis and uveitis in children: a pediatric rheumatology perspective, 879
Congenital iris coloboma repair using a modified McCannel suture technique, 730
Factors related to severe uveitis at diagnosis in children with juvenile idiopathic arthritis in a screening program, 757
Intermediate uveitis in childhood preceding the diagnosis of multiple sclerosis: a 13-year follow-up, 885
Laser flare photometry and complications of chronic uveitis in children, 763
Ocular involvement in children with candidemia, 886
Ophthalmic outcomes after prenatal and postnatal treatment of congenital toxoplasmosis, 779
Photodynamic therapy with verteporfin for subfoveal choroidal neovascularization in children, 900
Randomized, clinical trial of quadrilateral hydrosisraction in pediatric cataract surgery, 84
Small-size pediatric vitrectomy wide-angle contact lens, 236
Special considerations in the evaluation and management of uveitis in children, 867
Surgical management of cataracts in children with juvenile rheumatoid arthritis-associated uveitis, 772
Traumatic hyphemas in children secondary to corporal punishment with a belt, 719
Unilateral leukocoria in off axis flash photographs of normal eyes, 709
Visual loss associated with pediatric uveitis in English primary and referral centers, 676

Choriocapillaris blood flow
Clinical observations supporting a theoretical model of choriocapillaris blood flow in treatment of choroidal neovascularization (letter), 124

Chorioretinitis
Corticosteroid-induced modulation of acute syphilitic posterior placoid choriotretinitis, 891

Chorioretinopathy
Iatrogenic punctate chorioretinopathy after internal limiting membrane peeling, 178

Choroidal melanoma
Camera artifacts producing the false impression of growth of choroidal melanocytic lesions, 711
Clinicopathologic findings in choroidal melanomas after failed transpupillary thermotherapy, 657
Consecutive choroidal melanomas in the same eye of a patient, 728
Retinal tear and detachment after transpupillary thermotherapy for choroidal melanoma, 729
Treatment of choroidal melanoma using photodynamic therapy, 898

Choroidal metastases
Choroidal metastases from adenoid cystic carcinoma of the lung, 239
Spontaneous regression of choroidal metastasis from renal cell carcinoma, 911

Choroidal neovascular membrane
Choroidal neovascular membrane associated with optic nerve coloboma in a patient with CHARGE association, 919

Choroidal neovascular membranes
Clinicopathologic study after submacular removal of choroidal neovascular membranes treated with verteporfin ocular photodynamic therapy, 343
Expression of extradomain-B-containing fibronectin in subretinal choroidal neovascular membranes, 7

Choroidal neovascularization
Clinical observations supporting a theoretical model of choriocapillaris blood flow in treatment of choroidal neovascularization (letter), 124
Limited macular translocation for the management of subfoveal choroidal neovascularization after photodynamic therapy, 109
Photodynamic therapy for choroidal neovascularization after thermal laser photocoagulation for diabetic macular edema, 114
Photodynamic therapy using verteporfin for choroidal neovascularization in angiod streaks, 1
Surgery for subfoveal choroidal neovascularization in toxoplasmic retinochoroiditis, 386

Choroidal osteoma
Bone in the eye, 254

Chronic myelogenous leukemia
Resolution of leukemia retinopathy following treatment with imatinib mesylate for chronic myelogenous leukemia, 398

Chronic myeloid leukemia
Peripheral retinal nonperfusion associated with chronic myeloid leukemia, 404

Collagen crosslinking
Riboflavin/ultraviolet-A–induced collagen crosslinking for the treatment of keratoconus, 620

Coloboma
Choroidal neovascular membrane associated with optic nerve coloboma in a patient with CHARGE association, 919
Congenital iris coloboma repair using a modified McCannel suture technique, 730

Confocal scanning laser ophthalmoscopy
Comparison of optic nerve head measurements obtained by optical coherence tomography and confocal scanning laser ophthalmoscopy, 504

Congenital adrenal hyperplasia
Congenital adrenal hyperplasia due to 21-hydroxylase deficiency associated with bilateral keratoconus, 557

Congenital iris coloboma
Congenital iris coloboma repair using a modified McCannel suture technique, 730

Congenital stationary night blindness
Novel CACNA1F mutation in a French family with the incomplete type of X-linked congenital stationary night blindness, 733
Conjunctiva
Topical mitomycin C for conjunctival–corneal squamous cell carcinoma (letter), 122

Conjunctival autograft transplantation
Anterior segment indocyanine green angiography in pterygium surgery with conjunctival autograft transplantation, 71

Conjunctival hyperemia
Conjunctival hyperemia in healthy subjects after short-term dosing with latanoprost, bimatoprost, and travoprost, 314

Conjunctival melanoma
 Conjunctival melanoma: is it increasing in the United States?, 800

Conjunctivitis
Azithromycin vs doxycycline in the treatment of inclusion conjunctivitis, 447

Conjunctivochalasis
New surgical treatment for superior limbic keratoconjunctivitis and its association with conjunctivochalasis, 303

Contact lens
Newly designed self-retaining contact lens for vitreous surgery, 544
Small-size pediatric vitrectomy wide-angle contact lens, 236

Contrast-sensitivity function
Impact of interocular differences in corneal asphericity on binocular summation, 279

Cornea
Corneal thickness measurements and visual function abnormalities in ocular hypertensive patients, 131
Experimental study of viscoelastic in the prevention of corneal endothelial desiccation injury from vitreal fluid-air exchange, 641
Impact of interocular differences in corneal asphericity on binocular summation, 279
Increased endothelial cell density in the paracentral and peripheral regions of the human cornea, 584
Scanning laser polarimetry with variable corneal compensation and optical coherence tomography in normal and glaucomatous eyes, 521
Sclerotic scattering illumination during phototherapeutic keratectomy for better visualization of corneal opacities, 559
Topical mitomycin C for conjunctival–corneal squamous cell carcinoma (letter), 122

Corneal allograft
Preliminary findings in corneal allograft rejection in patients with keratoconus, 452

Corneal button
Penetrating corneal transplant with inadvertent corneal button inversion, 91

Corneal dystrophy
Clinicopathologic correlation and genetic analysis in a case study examples of posterior polymorphous corneal dystrophy, 461
Novel mutation of MSL1 gene found in a Vietnamese patient with gelatinous droplike corneal dystrophy, 390

Corneal perforation
Corneal perforation during laser in situ keratomileusis after hyperopic electrothermal keratoplasty, 554
Therapeutic deep lamellar keratoplasty for cornea perforation, 896

Corneal surface smoothing
Mathematical model of corneal surface smoothing after laser refractive surgery, 267

Corneal transplantation
Assessment of visual function after corneal transplantation: the Quality of Life and Psychometric Assessment after Corneal Transplantation (Q-PACT) Study, 785
Penetrating corneal transplant with inadvertent corneal button inversion, 91

Corneal ulcers
Lecithin-bound superoxide dismutase in the treatment of non-infectious corneal ulcers, 613

Corticosteroid(s)
Corticosteroid-induced modulation of acute syphilitic posterior placoid chorioretinitis, 891
Progressive outer retinal necrosis in immunocompetent patients treated initially for optic neuropathy with systemic corticosteroids, 551

Corticosteroid pulse therapy
Effect of steroid pulse therapy with and without orbital radiotherapy on Graves’ ophthalmopathy, 285

Cowden disease
Retinal angioma in a patient with Cowden disease, 400

Crystalline lens
Spondylo-ocular syndrome: a new entity with crystalline lens malformation, cataract, retinal detachment, osteoporosis, and platyspondyly, 681

Cyst(s)
Iris cyst secondary to latanoprost mimicking iris melanoma, 419
Simultaneous ipsilateral temporal fossa and orbital dermoid cysts, 413
Surgical management of anterior chamber epithelial cysts, 309
Ultrasound findings in orbital hydatid cysts, 568

Cystoid macular edema
Reduced oscillatory potentials of the full-field electroretinogram of eyes with aphakic or pseudophakic cystoid macular edema, 477

Cytokines
Relation of diabetic macular edema to cytokines and posterior vitreous detachment, 321

Cytomegalovirus retinitis
Cytomegalovirus resistance to ganciclovir and clinical outcomes of patients with cytomegalovirus retinitis, 26
Genotypic analysis of cytomegalovirus retinitis poorly responsive to intravenous ganciclovir but responsive to the ganciclovir implant, 20

D

Dacryocystorhinostomy
Endonasal dacryocystorhinostomy with mucosal flaps, 76

Deep lamellar keratoplasty
Therapeutic deep lamellar keratoplasty for cornea perforation, 896

Dermoid cysts
Simultaneous ipsilateral temporal fossa and orbital dermoid cysts, 413

Diabetes mellitus
Frequency of epithelial debridement during diabetic vitrectomy, 553
Relationship between human leukocyte antigen status and...
proliferative diabetic retinopathy in patients with younger-onset type 1 diabetes mellitus, 844

Treatment of anemia in the diabetic patient with retinopathy and kidney disease, 740

Diabetic macular edema
Early postoperative retinal thickness changes and complications after vitrectomy for diabetic macular edema, 14
Optical coherence tomography for evaluating diabetic macular edema before and after vitrectomy, 169
Photodynamic therapy for choroidal neovascularization after thermal laser photocoagulation for diabetic macular edema, 114
Relation of diabetic macular edema to cytokines and posterior vitreous detachment, 321
Resolution of diabetic cystoid macular edema associated with spontaneous vitreofveal separation, 116

Diabetic retinopathy
Computerized method of visual acuity testing: adaptation of the early treatment of diabetic retinopathy study testing protocol, 194

Diffuse unilateral subacute neuroretinitis
Eye findings of diffuse unilateral subacute neuroretinitis and multiple choroidal infiltrates associated with neural larva migrans due to Baylisascaris procyonis, 888

Diffusion magnetic resonance imaging
Acute occipital demyelinating lesion appearing as an infarct on diffusion magnetic resonance imaging, 96

Disk damage likelihood scale
Reliability of the disk damage likelihood scale, 44

Doppler imaging
Reproducibility and clinical application of a newly developed stabilized retinal laser Doppler instrument, 356

Doxycycline
Azithromycin vs doxycycline in the treatment of inclusion conjunctivitis, 447

Drug-related angioedema
Malignant glaucoma due to drug-related angioedema, 224

Dry eye
Improved functional visual acuity after punctual occlusion in dry eye patients, 704

Edema
See also Macular edema
Early postoperative retinal thickness changes and complications after vitrectomy for diabetic macular edema, 14
Effect of optic disk edema on spontaneous venous pulsations, 706
Intravitreal triamcinolone for refractory pseudophakic macular edema, 246
Optical coherence tomography for evaluating diabetic macular edema before and after vitrectomy, 169
Relation of diabetic macular edema to cytokines and posterior vitreous detachment, 321

Education
American ophthalmology graduate medical education and the web: current state of internet resource utilization, 708

Ehrlichiosis optic neuritis
Ehrlichiosis optic neuritis, 412

Electroretinogram
Reduced oscillatory potentials of the full-field electroretinogram of eyes with aphakic or pseudophakic cystoid macular edema, 477

Endokeratoplasty
Mycobacterium chelonae interface infection after endokeratoplasty, 393

Endonasal dacryocystorhinostomy
Endonasal dacryocystorhinostomy with mucosal flaps, 76

Endophthalmitis
Bilateral presumed endogenous Candida endophthalmitis and stage 3 retinopathy of prematurity, 747
Iris abscess as an unusual presentation of endogenous endophthalmitis in a patient with bacterial endocarditis, 228
Posttraumatic endogenous Nocardia endophthalmitis, 915

Endothelial cells
Increased endothelial cell density in the paracentral and peripheral regions of the human cornea, 584

Endothelium
Experimental study of viscoelastic in the prevention of corneal endothelial desiccation injury from vitreal fluid-air exchange, 641

Endovascular surgery
Retinal endovascular surgery and intravitreal triamcinolone acetonide for central vein occlusion in young adults, 382

Epiretinal membrane surgery
Epiretinal membrane surgery assisted by trypan blue, 909

Episcleral pseudomelanoma
Episcleral pseudomelanoma: late complication of scleral tunnel incision, 387

Epithelial cysts
Surgical management of anterior chamber epithelial cysts, 309

Epithelium
Lecithin-bound superoxide dismutase in the treatment of noninfectious corneal ulcers, 613

Erythema elevatum diutinum
Peripheral keratitis associated with erythema elevatum diutinum, 389

Extracapsular cataract extraction
Visual outcomes and incidence of vitreous loss for residents performing phacoemulsification without prior planned extracapsular cataract extraction experience, 732

Extradomain-B
Expression of extradomain-B-containing fibronectin in subretinal choroidal neovascular membranes, 7

Eye drops
Improved technique of eye drop self-administration for patients with limited vision, 530

Eye wall resection
Tuberculous granuloma managed by full thickness eye wall resection, 93

Eyelids
Increased periocular pigmentation with ocular hypotensive lipid use in African Americans, 713
Topical tacrolimus treatment of atopic eyelid disease, 297

Familial amyloidotic polyneuropathy
Vitreous opacities and outcome of vitreous surgery in patients with familial amyloidotic polyneuropathy, 188
Fluid-air exchange
Experimental study of viscoelastic in the prevention of corneal endothelial desiccation injury from vitreal fluid-air exchange, 641

5-Fluorouracil
Transient, profound cataract associated with intracameral 5-fluorouracil, 101

Fovea
Foveal thickness in occult macular dystrophy, 725
Prevalence and characteristics of foveal retinal detachment without macular hole in high myopia, 338

Foveal congenital hypertrophy
Foveal congenital hypertrophy of the retinal pigment epithelium in the setting of geographic atrophy from age-related macular degeneration, 120

Foveal hypoplasia
Foveal hypoplasia demonstrated in vivo with optical coherence tomography, 112

Foveomacular dystrophy
Adult-onset foveomacular vitelliform dystrophy: a study by optical coherence tomography, 362
Novel mutation in the RDS/Peripherin gene causes adult-onset foveomacular dystrophy, 213

FOXC1 gene
Family with Axenfeld-Rieger syndrome and Peters anomaly caused by a point mutation (Phe112Ser) in the FOXC1 gene, 368

Frequency-doubling perimetry
Combined use of frequency doubling perimetry and polarimetric measurements of retinal nerve fiber layer in glaucoma detection, 160
Detection of glaucomatous visual field defect by nonconventional perimetry, 35
Is reading disability likely to interfere with glaucoma screening of adults using frequency-doubling technology perimetry?, 816
Malignant glaucoma due to drug-related angioedema, 224
 Neural networks to identify glaucomatous visual field progression, 49
Rate of progression of glaucoma correlates with retrobulbar circulation and intraocular pressure, 664
Reduced cerebrovascular blood flow velocities and vasoreactivity in open-angle glaucoma, 144
Scanning laser polarimetry with variable corneal compensation and optical coherence tomography in normal and glaucomatous eyes, 521
Six-month randomized clinical trial comparing the intraocular pressure-lowering efficacy of bimatoprost and latanoprost in patients with ocular hypertension or glaucoma, 55, 921(letter), 922(letter)

Function of visual loss
Prevalence of organic neuro-ophthalmologic disease in patients with functional visual loss, 670

Fundus albipunctatus
Macular dystrophy in a Japanese family with fundus albipunctatus, 917

Ganciclovir
Cytomegalovirus resistance to ganciclovir and clinical outcomes of patients with cytomegalovirus retinitis, 26
Genotypic analysis of cytomegalovirus retinitis poorly responsive to intravenous ganciclovir but responsive to the ganciclovir implant, 20

Gelatinous droplike corneal dystrophy
Novel mutation of MIS1 gene found in a Vietnamese patient with gelatinous droplike corneal dystrophy, 390

Geographic atrophy
Foveal congenital hypertrophy of the retinal pigment epithelium in the setting of geographic atrophy from age-related macular degeneration, 120

Glaucoma
Ahmed drainage implant in the treatment of pediatric glaucoma, 821
Analysis of macular volume in normal and glaucomatous eyes using optical coherence tomography, 838
Case of occult macular dystrophy accompanying normal-tension glaucoma, 715
Cataract after glaucoma filtration surgery, 231
Characteristics of visual field progression in patients with normal-tension glaucoma with optic disk hemorrhages, 499
Comparison of latanoprost, bimatoprost, and travoprost in patients with elevated intraocular pressure: a 12-week, randomized, masked-evaluator multicenter study, 688
Detection of glaucomatous visual field defect by nonconventional perimetry, 35
Evaluation of the glaucomatous damage on retinal nerve fiber layer thickness measured by optical coherence tomography, 513
Increased disk size in glaucomatous eyes vs normal eyes in the Reykjavik Eye Study, 226
Is reading disability likely to interfere with glaucoma screening of adults using frequency-doubling technology perimetry?, 816

Validity of a new disk grading scale for estimating glaucomatous damage: correlation with visual field damage, 749
Visual field indexes for version 3.0 of frequency doubling perimetry in patients with glaucoma, 99
What is the risk of developing pigmentary glaucoma from pigment dispersion syndrome?, 794
Glycoprotein
Recurrent retinal vein occlusion in a patient with increased plasma levels of histidine-rich glycoprotein, 232
Graduate medical education
American ophthalmology graduate medical education and the web: current state of internet resource utilization, 708
Graves’ ophthalmopathy
Effect of steroid pulse therapy with and without orbital radiotherapy on Graves’ ophthalmopathy, 285
Health questionnaire
Self-administered health questionnaire for the preoperative risk stratification of patients undergoing cataract surgery, 599
Hemorrhage
Leber congenital amaurosis associated with optic disk neovascularization and vitreous hemorrhage, 723
Herpes zoster virus sclerokeratitis
Herpes zoster virus sclerokeratitis and anterior uveitis in a child following varicella vaccination, 71
Histidine-rich glycoprotein
Recurrent retinal vein occlusion in a patient with increased plasma levels of histidine-rich glycoprotein, 232
Human leukocyte antigen
Relationship between human leukocyte antigen status and proliferative diabetic retinopathy in patients with younger-onset type 1 diabetes mellitus, 844
Humphrey Field Analyzer
Detection of glaucomatous visual field defect by nonconventional perimetry, 35
Hydatid cysts
Intramuscular hydatid cyst of the medial rectus muscle, 98
Ultrasound findings in orbital hydatid cysts, 568
Hydrodissection
Randomized, clinical trial of multi-quadrant hydrodissection in pediatric cataract surgery, 84
Hydroview hydrogel intraocular lens
Proposed pathogenesis for the delayed postoperative opacification of the Hydroview hydrogel intraocular lens, 591
21-Hydroxylase deficiency
Congenital adrenal hyperplasia due to 21-hydroxylase deficiency associated with bilateral keratoconus, 557
Hyperemia
Conjunctival hyperemia in healthy subjects after short-term dosing with latanoprost, bimatoprost, and travoprost, 314
Hypertension, ocular
Comparison of latanoprost, bimatoprost, and travoprost in patients with elevated intraocular pressure: a 12-week, randomized, masked-evaluator multicenter study, 688
Corneal thickness measurements and visual function abnormalities in ocular hypertensive patients, 131
Six-month randomized clinical trial comparing the intraocular pressure-lowering efficacy of bimatoprost and latanoprost in patients with ocular hypertension or glaucoma, 55, 921(letter), 922(letter)
Timolol 0.5%/dorzolamide 2% fixed combination vs timolol maleate 0.5% and unoprostone 0.15% given twice daily to patients with primary open-angle glaucoma or ocular hypertension, 138
Hypertension, primary pulmonary
Uveal effusion and angle-closure glaucoma in primary pulmonary hypertension, 705
Hyphema
Traumatic hyphemas in children secondary to corporal punishment with a belt, 719
Unusual case of uveitis-glaucoma-hyphema syndrome, 561
Iatrogenic punctuate chorioretinopathy
Iatrogenic punctuate chorioretinopathy after internal limiting membrane peeling, 178
Idiopathic retinal vasculitis, aneurysms, and neuroretinitis (IRVAN) syndrome
Extensive dynamics in location, shape, and size of aneurysms in a patient with idiopathic retinal vasculitis, aneurysms, and neuroretinitis (IRVAN) syndrome, 118
Imatinib mesylate
Resolution of leukemia retinopathy following treatment with imatinib mesylate for chronic myelogenous leukemia, 398
Inclusion conjunctivitis
Azithromycin vs doxycycline in the treatment of inclusion conjunctivitis, 447
Indocyanine green
Anterior segment indocyanine green angiography in pterygium surgery with conjunctival autograft transplantation, 71
Effect of indocyanine-green on functional outcome of macular pucker surgery, 328
Retinal capillary hemangioma treatment by indocyanine green-mediated photocoagulation, 395
Selective occlusion of subfoveal choroidal neovascularization in pathologic myopia using a new technique of ingrowth site treatment, 857
Toxic effect of indocyanine green on retinal pigment epithelium related to osmotic effects of the solvent (letter), 258
Infarct
Acute occipital demyelinating lesion appearing as an infarct on diffusion magnetic resonance imaging, 96
Infection
Clinico-microbiological correlation of suture-related graft infection following penetrating keratoplasty, 89
Mycobacterium chelonae interface infection after endokeratoplasty, 393
Intacs
Management of keratoconus with Intacs, 64
Interlenticular opacification
Interlenticular opacification associated with asymmetric haptic fixation of the anterior intraocular lens, 106
Interleukin-6
Increased interleukin-6 in aqueous humor of a patient with lung-metastatic intraocular adenocarcinoma, 237
Internal limiting membrane
Effect of indocyanine-green on functional outcome of macular pucker surgery, 328
Iatrogenic punctuate chorioretinopathy after internal limiting membrane peeling, 178
Internal limiting membrane removal for macular detachment in highly myopic eyes, 547
Removal of the internal limiting membrane under perfluorocarbon liquid to treat macular-hole-associated retinal detachment, 894
Trypan blue-assisted peeling of the internal limiting membrane during macular hole surgery, 903

Internet
American ophthalmology graduate medical education and the web: current state of internet resource utilization, 708

Intracranial pressure
Effect of optic disk edema on spontaneous venous pulsations, 706

Intraocular lens
Aging changes in apparent accommodation in eyes with a monocular intraocular lens, 432
Cataract after minor trauma in a young patient with an iris-fixated intraocular lens for high myopia, 890
Combined phacoemulsification, intraocular lens implantation, and vitrectomy for eyes with coexisting cataract and vitreoretinal pathology, 291
Correlation between various types of intraocular lens and laser wavelength, 902
Interlenticular opacification associated with asymmetric haptic fixation of the anterior intraocular lens, 106
Proposed pathogenesis for the delayed postoperative opacification of the Hydrosview hydrogel intraocular lens, 591
Surgical management of cataracts in children with juvenile rheumatoid arthritis-associated uveitis, 772

Intraocular pressure
Accuracy of intraocular pressure by Tono-Pen XL over amniotic membrane patching in rabbits, 536
Botulinum A toxin for restrictive myopathy of thyroid-related orbitopathy: effects on intraocular pressure, 427
Comparison of latanoprost, bimatoprost, and travoprost in patients with elevated intraocular pressure: a 12-week, randomized, masked-evaluator multicenter study, 688
Iris color and intraocular pressure: the Blue Mountains Eye Study, 384
Rate of progression of glaucoma correlates with retrobulbar circulation and intraocular pressure, 664
Six-month randomized clinical trial comparing the intraocular pressure-lowering efficacy of bimatoprost and latanoprost in patients with ocular hypertension or glaucoma, 55, 921(letter), 922(letter)
Use of glaucoma drainage devices in the management of glaucoma associated with aniridia, 155

Iridociliary apposition
Iridociliary apposition in plateau iris syndrome persists after cataract extraction, 40

Iris
Case of angle closure glaucoma caused by plateau iris and Adie’s pupil, 717
Congenital iris coloboma repair using a modified McCannel suture technique, 730
Custom-designed plaque radiotherapy for nonresectable iris melanoma in 38 patients: tumor control and ocular complications, 648
Iris abscess as an unusual presentation of endogenous endophthalmitis in a patient with bacterial endocarditis, 228

Iris color and intraocular pressure: the Blue Mountains Eye Study, 384
Iris cyst secondary to latanoprost mimicking iris melanoma, 419

Juvenile idiopathic arthritis
Factors related to severe uveitis at diagnosis in children with juvenile idiopathic arthritis in a screening program, 757

Juvenile rheumatoid arthritis
Surgical management of cataracts in children with juvenile rheumatoid arthritis-associated uveitis, 772

Keratectomy
Sclerotic scattering illumination during phototherapeutic keratectomy for better visualization of corneal opacities, 559

Keratitis
Epidemic and sporadic cases of nontuberculous mycobacterial keratitis associated with laser in situ keratomileusis, 223
Peripheral keratitis associated with erythema elevatum diutinum, 389

Keratoconjunctivitis
New surgical treatment for superior limbic keratoconjunctivitis and its association with conjunctivochalasis, 303

Keratoconus
Congenital adrenal hyperplasia due to 21-hydroxylase deficiency associated with bilateral keratoconus, 557
Keratocyte density in keratoconus (letter), 746
Management of keratoconus with Intacs, 64
Preliminary findings in corneal allograft rejection in patients with keratoconus, 452
Riboflavin/ultraviolet-A–induced collagen crosslinking for the treatment of keratoconus, 620

Keratocytes
Keratocyte density in keratoconus (letter), 746

Keratoplasty
Clinico-microbiological correlation of suture-related graft infection following penetrating keratoplasty, 89
Corneal perforation during laser in situ keratomileusis after hyperopic electrothermal keratoplasty, 554
Surgical technique for control of postkeratoplasty myopia, astigmatism, and anisometropia, 807
Therapeutic deep lamellar keratoplasty for cornea perforation, 896

Kidney disease
Treatment of anemia in the diabetic patient with retinopathy and kidney disease, 740

Laser
Correlation between various types of intraocular lens and laser wavelength, 902
Optical coherence tomographic evaluation of a surgically treated macular hole secondary to Nd:YAG laser injury, 537
Photodynamic therapy for choroidal neovascularization after thermal laser photocoagulation for diabetic macular edema, 114
Laser flare photometry
Laser flare photometry and complications of chronic uveitis in children, 763

Laser in situ keratomileusis
Corneal perforation during laser in situ keratomileusis after hyperopic electrothermal keratoplasty, 354
Correlation of visual and refractive outcomes between eyes after same-session bilateral laser in situ keratomileusis surgery, 577
Epidemic and sporadic cases of nontuberculous mycobacterial keratitis associated with laser in situ keratomileusis, 223
Mathematical model of corneal surface smoothing after laser refractive surgery, 267

Latanoprost
Comparison of latanoprost, bimatoprost, and travoprost in patients with elevated intraocular pressure: a 12-week, randomized, masked-evaluator multicenter study, 688
Conjunctival hyperemia in healthy subjects after short-term dosing with latanoprost, bimatoprost, and travoprost, 314
Increased periorcular pigmentation with ocular hypotensive lipid use in African Americans, 713
Iris cyst secondary to latanoprost mimicking iris melanoma, 419
Six-month randomized clinical trial comparing the intraocular pressure-lowering efficacy of bimatoprost and latanoprost in patients with ocular hypertension or glaucoma, 55, 921(letter), 922(letter)

Leber congenital amaurosis
Leber congenital amaurosis associated with optic disk neovascularization and vitreous hemorrhage, 723

Lecithin-bound superoxide dismutase
Lecithin-bound superoxide dismutase in the treatment of non-infectious corneal ulcers, 613

Leiomyosarcoma
Primary orbital leiomyosarcoma: a case report with MRI findings, 408

Lens
Interlenticular opacification associated with asymmetric haptic fixation of the anterior intraocular lens, 106
Pilot study of lens extraction in the management of acute primary angle-closure glaucoma, 534
Randomized, clinical trial of multiquadrant hydrodissection in pediatric cataract surgery, 84
Retinal detachment rate after vitrectomy for retained lens material after phacoemulsification, 183

Lenticular fibroxanthomatous nodule
Lenticular fibroxanthomatous nodule, 229

Leukemia
Bilateral optic nerve infiltration in central nervous system leukemia, 94
Peripheral retinal nonperfusion associated with chronic myeloid leukemia, 404

Leukemia retinopathy
Resolution of leukemia retinopathy following treatment with imatinib mesylate for chronic myelogenous leukemia, 398

Leukocoria
Unilateral leukocoria in off axis flash photographs of normal eyes, 709

Limbal-conjunctival autograft transplantation
Anterior segment indocyanine green angiography in pterygium surgery with conjunctival autograft transplantation, 71

Lipemia retinalis
Lipemia retinalis associated with branch retinal vein occlusion, 539

Lisch nodules
Unilateral Lisch nodules in the absence of other features of neurofibromatosis I, 567

Local anesthesia
Transient impaired vision, external ophthalmoplegia, and internal ophthalmoplegia after blepharoplasty under local anesthesia, 410

Lung cancer
Choroidal metastases from adenoid cystic carcinoma of the lung, 239
Increased interleukin-6 in aqueous humor of a patient with lung-metastatic intracranial adenocarcinoma, 237

Macula
Analysis of macular volume in normal and glaucomatous eyes using optical coherence tomography, 838

Macular detachment
Internal limiting membrane removal for macular detachment in highly myopic eyes, 547
Spontaneous resolution of a shallow detachment of the macula in a highly myopic eye, 546

Macular dystrophy
Case of occult macular dystrophy accompanying normal-tension glaucoma, 715
Foveal thickness in occult macular dystrophy, 725
Macular dystrophy in a Japanese family with fundus albipunctatus, 917

Macular edema
Early postoperative retinal thickness changes and complications after vitrectomy for diabetic macular edema, 14
Intravitreal triamcinolone for refractory pseudophakic macular edema, 246
Optical coherence tomography for evaluating diabetic macular edema before and after vitrectomy, 169
Reduced oscillatory potentials of the full-field electroretinogram of eyes with aphakic or pseudophakic cystoid macular edema, 477
Relation of diabetic macular edema to cytokines and posterior vitreous detachment, 321

Macular hole
Long-term anatomic and visual acuity outcomes after initial anatomic success with macular hole surgery, 633
Macular hole formation following ruptured retinal arterial macroaneurysm, 487
Mapping posterior vitreous detachment by optical coherence tomography in eyes with idiopathic macular hole, 351
Measured visual acuity of fellow eyes as a prognostic factor in macular hole surgery, 493
Optical coherence tomographic evaluation of a surgically treated macular hole secondary to Nd:YAG laser injury, 537
Prevalence and characteristics of foveal retinal detachment without macular hole in high myopia, 338
Removal of the internal limiting membrane under perfluorocarbon liquid to treat macular-hole-associated retinal detachment, 894
Ruptured retinal arterial macroaneurysm associated with a stage IV macular hole, 907
Trypan blue-assisted peeling of the internal limiting membrane during macular hole surgery, 903

Macular pucker
Effect of indocyanine-green on functional outcome of macular pucker surgery, 328

Macular translocation
Continuous outflow devices for macular translocation with 360-degree retinotomy, 241
Limited macular translocation for the management of subfoveal choroidal neovascularization after photodynamic therapy, 109
Macular translocation with 360-degree retinotomy for management of age-related macular degeneration with subfoveal choroidal neovascularization (letter), 748
Modified technique to create retinal detachment during macular translocation surgery, 105

Magnetic resonance imaging
Acute occipital demyelinating lesion appearing as an infarct on diffusion magnetic resonance imaging, 96
Primary orbital leiomyosarcoma: a case report with MRI findings, 408

McCannel suture technique
Congenital iris coloboma repair using a modified McCannel suture technique, 730

Medial rectus muscle
Intramuscular hydatid cyst of the medial rectus muscle, 98

Medical education
American ophthalmology graduate medical education and the web: current state of internet resource utilization, 708

Melanoma
Camera artifacts producing the false impression of growth of choroidal melanocytic lesions, 711
Clinicopathologic findings in choroidal melanomas after failed transpupillary thermotherapy, 657
Conjunctival melanoma: is it increasing in the United States?, 800
Consecutive choroidal melanoma in the same eye of a patient, 728
Retinal tear and detachment after transpupillary thermotherapy for choroidal melanoma, 729
Treatment of choroidal melanoma using photodynamic therapy, 898

Metastases
Choroidal metastases from adenoid cystic carcinoma of the lung, 239
Increased interleukin-6 in aqueous humor of a patient with lung-metastatic intraocular adenocarcinoma, 237

Middle cerebral artery
Reduced cerebrovascular blood flow velocities and vasoreactivity in open-angle glaucoma, 144

Mitochondrial myopathy
Myopic strabismus fixus: a mitochondrial myopathy?, 720

Mitomycin C
Topical mitomycin C for conjunctival–corneal squamous cell carcinoma (letter), 122

Mold exposure
Indoor mold spore exposure: a possible factor in the etiology of multifocal choroiditis, 402

MIS1 gene
Novel mutation of MIS1 gene found in a Vietnamese patient with gelatinous drop-like corneal dystrophy, 390

Mucocoele
Optic neuropathy produced by a compressed mucocoele in an Onodi cell, 253

Mucosal flaps
Endonasal dacryocystorhinostomy with mucosal flaps, 76

Multifocal choroiditis
Indoor mold spore exposure: a possible factor in the etiology of multifocal choroiditis, 402
White spot syndromes of the retina: a hypothesis based on the common genetic hypothesis of autoimmune/inflammatory disease, 376

Multiple evanescent white dot syndrome
White spot syndromes of the retina: a hypothesis based on the common genetic hypothesis of autoimmune/inflammatory disease, 376

Multiple sclerosis
Intermediate uveitis in childhood preceding the diagnosis of multiple sclerosis: a 13-year follow-up, 885

Mycobacterium chelonae
Mycobacterium chelonae interface infection after endokeratoplasty, 393

Myokymia
Three-dimensional eye movement analysis of superior oblique myokymia, 563

Myopia
Cataract after minor trauma in a young patient with an iris-fixated intraocular lens for high myopia, 890
Internal limiting membrane removal for macular detachment in highly myopic eyes, 547
Myopic astigmatism and presbyopia trial, 628
Prevalence and characteristics of foveal retinal detachment without macular hole in high myopia, 338
Selective occlusion of subfoveal choroidal neovascularization in pathologic myopia using a new technique of ingrowth site treatment, 857
Spontaneous resolution of a shallow detachment of the macula in a highly myopic eye, 546
Surgical technique for control of postkeratoplasty myopia, astigmatism, and anisometropia, 807

Myopic strabismus fixus
Myopic strabismus fixus: a mitochondrial myopathy?, 720

Nasolacrimal duct obstruction
Migration and apparent disappearance of silicone tube following treatment of nasolacrimal duct obstruction, 905

Nd:YAG laser
Optical coherence tomographic evaluation of a surgically treated macular hole secondary to Nd:YAG laser injury, 537

Neovascularization
See also Choroidal neovascularization; Subfoveal choroidal neovascularization
Leber congenital amaurosis associated with optic disk neovascularization and vitreous hemorrhage, 723

**Neural larva migrans**
Eye findings of diffuse unilateral subacute neuroretinitis and multiple choroidal infiltrates associated with neural larva migrans due to Baylisascaris procyonis, 888

**Neural networks**
Neural networks to identify glaucomatous visual field progression, 49

**Neurofibromatosis I**
Unilateral Lisch nodules in the absence of other features of neurofibromatosis I, 567

**Neuro-ophtalmologic disease**
Prevalence of organic neuro-ophtalmologic disease in patients with functional visual loss, 670

**Neutrophils**
Neutrophil margination as a possible mechanism for verteporfin infusion-associated pain, 549

**Nicotinic acid maculopathy**
Optical coherence tomography findings in nicotinic acid maculopathy, 913

**Nocardia endophthalmitis**
Posttraumatic endogenous Nocardia endophthalmitis, 915

**Nontuberculous mycobacterial keratitis**
Epidemic and sporadic cases of nontuberculous mycobacterial keratitis associated with laser in situ keratomileusis, 223

**Occult macular dystrophy**
Case of occult macular dystrophy accompanying normal-tension glaucoma, 715
Foveal thickness in occult macular dystrophy, 725

**Ocular hypertensive lipids**
Increased pericellular pigmentation with ocular hypertensive lipid use in African Americans, 713

**Ocular tilt reaction**
Ocular tilt reaction due to a mesencephalic lesion in juvenile polyarteritis nodosa, 249

**Off-axis photographs**
Camera artifacts producing the false impression of growth of choroidal melanocytic lesions, 711
Unilateral leukocoria in off axis flash photographs of normal eyes, 709

**Onodi cell**
Optic neuropathy produced by a compressed mucocele in an Onodi cell, 253

**OPA1 gene**
Novel mutation in the OPA1Gene in a Japanese patient with optic atrophy, 256

**Opacification**
Proposed pathogenesis for the delayed postoperative opacification of the Hydroview hydrogel intraocular lens, 591

**Open-angle glaucoma**
See also Glaucoma
Comparison of latanoprost, bimatoprost, and travoprost in patients with elevated intraocular pressure: a 12-week, randomized, masked-evaluator multicenter study, 688
Reduced cerebrovascular blood flow velocities and vasoreactivity in open-angle glaucoma, 144
Timolol 0.5%/dorzolamide 2% fixed combination vs timolol maleate 0.5% and unoprostone 0.15% given twice daily to patients with primary open-angle glaucoma or ocular hypertension, 138

**Ophthalmoplegia**
Transient impaired vision, external ophthalmoplegia, and internal ophthalmoplegia after blepharoplasty under local anesthesia, 410

**Optic atrophy**
Novel mutation in the OPA1Gene in a Japanese patient with optic atrophy, 256

**Optic disk**
Characteristics of visual field progression in patients with normal-tension glaucoma with optic disk hemorrhages, 499
Effect of optic disk edema on spontaneous venous pulsations, 706
Increased disk size in glaucomatous eyes vs normal eyes in the Reykjavik Eye Study, 226
Leber congenital amaurosis associated with optic disk neovascularization and vitreous hemorrhage, 723
Reliability of the disk damage likelihood scale, 44
Structure and function evaluation (SAFE): II. Comparison of optic disk and visual field characteristics, 148
Validity of a new disk grading scale for estimating glaucomatous damage: correlation with visual field damage, 749

**Optic nerve**
Bilateral optic nerve infiltration in central nervous system leukemia, 94
Choroidal neovascular membrane associated with optic nerve coloboma in a patient with CHARGE association, 919
Comparison of optic nerve head measurements obtained by optical coherence tomography and confocal scanning laser ophthalmoscopy, 504

**Optic neuritis**
Ehrlichiosis optic neuritis, 412

**Optic neuropathy**
Axonal loss after traumatic optic neuropathy documented by optical coherence tomography, 406
Increased disk size in glaucomatous eyes vs normal eyes in the Reykjavik Eye Study, 226
Optic neuropathy produced by a compressed mucocele in an Onodi cell, 253
Progressive outer retinal necrosis in immunocompetent patients treated initially for optic neuropathy with systemic corticosteroids, 551

**Optical coherence tomography**
Adult-onset foveomacular vitelliform dystrophy: a study by optical coherence tomography, 362
Analysis of macular volume in normal and glaucomatous eyes using optical coherence tomography, 838
Axonal loss after traumatic optic neuropathy documented by optical coherence tomography, 406
Comparison of optic nerve head measurements obtained by optical coherence tomography and confocal scanning laser ophthalmoscopy, 504
Evaluation of the glaucomatous damage on retinal nerve fiber layer thickness measured by optical coherence tomography, 513
Foveal hypoplasia demonstrated in vivo with optical coherence tomography, 112
Mapping posterior vitreous detachment by optical coherence tomography in eyes with idiopathic macular hole, 351
Optical coherence tomographic evaluation of a surgically treated macular hole secondary to Nd:YAG laser injury, 537
Optical coherence tomography findings in nicotinic acid maculopathy, 913
Optical coherence tomography for evaluating diabetic macular edema before and after vitrectomy, 169
Optical coherence tomography measurement of nerve fiber layer thickness and the likelihood of a visual field defect (letter), 744
Retinal capillary hemangioma treatment by indocyanine green-mediated photothrombosis, 395
Scanning laser polarimetry with variable corneal compensation and optical coherence tomography in normal and glaucomatous eyes, 521
Orbital radiotherapy
Effect of steroid pulse therapy with and without orbital radiotherapy on Graves’ ophthalmopathy, 285
Orbitopathy
Borulineum A toxin for restrictive myopathy of thyroid-related orbitopathy: effects on intraocular pressure, 427
Osteoma
Bone in the eye, 254
Osteoporosis
Spondylo-ocular syndrome: a new entity with crystalline lens malformation, cataract, retinal detachment, osteoporosis, and platyspondyly, 681
Pamidronate disodium
Scleritis and other ocular side effects associated with pamidronate disodium, 219
Papilledema
Anemia and papilledema, 437
Pediatrics
See Children
Penetrating keratoplasty
Assessment of visual function after corneal transplantation: the Quality of Life and Psychometric Assessment after Corneal Transplantation (Q-PACT) Study, 785
Clinico-microbiological correlation of suture-related graft infection following penetrating keratoplasty, 89
Perfluorocarbon liquid
Removal of the internal limiting membrane under perfluorocarbon liquid to treat macular-hole-associated retinal detachment, 894
Perimetry
See also Frequency-doubling perimetry; Short wavelength automated perimetry
Combined use of frequency doubling perimetry and polarimetric measurements of retinal nerve fiber layer in glaucoma detection, 160
Corneal thickness measurements and visual function abnormalities in ocular hypertensive patients, 131
Detection of glaucomatous visual field defect by nonconventional perimetry, 35
Structure and function evaluation (SAFE): II. Comparison of optic disk and visual field characteristics, 148
Peripheral keratitis
Peripheral keratitis associated with erythema elevatum diutinum, 389
Peripheral retinal nonperfusion
Peripheral retinal nonperfusion associated with chronic myeloid leukemia, 404
Peters anomaly
Family with Axenfeld-Rieger syndrome and Peters anomaly caused by a point mutation (Phel12Ser) in the FOXC1 gene, 368
Misspelling of Peters anomaly, 260
Phacoemulsification
Combined phacoemulsification, intraocular lens implantation, and vitrectomy for eyes with coexisting cataract and vitreoretinal pathology, 291
Retinal detachment rate after vitrectomy for retained lens material after phacoemulsification, 183
Visual outcomes and incidence of vitreous loss for residents performing phacoemulsification without prior planned extracapsular cataract extraction experience, 732
Phakic intraocular lens
Cataract after minor trauma in a young patient with an iris-fixed intraocular lens for high myopia, 890
Photocoagulation
Photodynamic therapy for choroidal neovascularization after thermal laser photocoagulation for diabetic macular edema, 114
Photodynamic therapy
Clinicopathologic study after submacular removal of choroidal neovascular membranes treated with verteporfin ocular photodynamic therapy, 343
Limited macular translocation for the management of subfoveal choroidal neovascularization after photodynamic therapy, 109
Photodynamic therapy using verteporfin for choroidal neovascularization in angoid streaks, 1
Photodynamic therapy with verteporfin for subfoveal choroidal neovascularization in children, 900
Treatment of choroidal melanoma using photodynamic therapy, 898
Phototherapeutic keratectomy
Sclerotic scattering illumination during phototherapeutic keratectomy for better visualization of corneal opacities, 559
Photothrombosis
Retinal capillary hemangioma treatment by indocyanine green-mediated photothrombosis, 395
Pigment dispersion syndrome?
What is the risk of developing pigmentary glaucoma from pigment dispersion syndrome?, 794
Pigmentation
Increased periocular pigmentation with ocular hypotensive lipid use in African Americans, 713
Pilocarpine
Pupillary response to four concentrations of pilocarpine in normal subjects (letter), 259
Pituitary adenoma
Abnormalities of scanning laser polarimetry associated with pituitary adenoma, 565
Plaque radiotherapy
Custom-designed plaque radiotherapy for nonresectable iris melanoma in 38 patients: tumor control and ocular complications, 648

Plateau iris
Case of angle closure glaucoma caused by plateau iris and Adie’s pupil, 717
Iridociliary apposition in plateau iris syndrome persists after cataract extraction, 40

Platyspondyly
Spondylo-ocular syndrome: a new entity with crystalline lens malformation, cataract, retinal detachment, osteoporosis, and platyspondyly, 681

Polarimetry
Combined use of frequency doubling perimetry and polarimetric measurements of retinal nerve fiber layer in glaucoma detection, 160
Scanning laser polarimetry with variable corneal compensation and optical coherence tomography in normal and glaucomatous eyes, 521

Polyarteritis nodosa
Ocular tilt reaction due to a mesencephalic lesion in juvenile polyarteritis nodosa, 249

Posterior polymorphous corneal dystrophy
Clinicopathologic correlation and genetic analysis in a case study examples of posterior polymorphous corneal dystrophy, 461

Posterior vitreous detachment
Mapping posterior vitreous detachment by optical coherence tomography in eyes with idiopathic macular hole, 351
Relation of diabetic macular edema to cytokines and posterior vitreous detachment, 321

Presbyopia
Myopic astigmatism and presbyopia trial, 628

Primary orbital leiomyosarcoma
Primary orbital leiomyosarcoma: a case report with MRI findings, 408

Primary pulmonary hypertension
Uveal effusion and angle-closure glaucoma in primary pulmonary hypertension, 705

Proliferative diabetic retinopathy
Relationship between human leukocyte antigen status and proliferative diabetic retinopathy in patients with younger-onset type 1 diabetes mellitus, 844

Pseudoxfoliation
Pseudoxfoliation in a rural population of southern India: the Aravind Comprehensive Eye Survey, 830

Pterygium
Anterior segment indocyanine green angiography in pterygium surgery with conjunctival autograft transplantation, 71

Punctual occlusion
Improved functional visual acuity after punctual occlusion in dry eye patients, 704

Pupil
Pupillary response to four concentrations of pilocarpine in normal subjects (letter), 259
Tonic pupil and sarcoidosis, 417

Quality of life
Assessment of visual function after corneal transplantation: the Quality of Life and Psychometric Assessment after Corneal Transplantation (Q-PACT) Study, 785

Radiotherapy
Custom-designed plaque radiotherapy for nonresectable iris melanoma in 38 patients: tumor control and ocular complications, 648
Effect of steroid pulse therapy with and without orbital radiotherapy on Graves’ ophthalmopathy, 285

RDS/Peripherin gene
Novel mutation in the RDS/Peripherin gene causes adult-onset foveomacular dystrophy, 213

Reading disability
Is reading disability likely to interfere with glaucoma screening of adults using frequency-doubling technology perimetry?, 816

Rectus muscles
Intramuscular hydatid cyst of the medial rectus muscle, 98

Refractive surgery
Correlation of visual and refractive outcomes between eyes after same-session bilateral laser in situ keratomileusis surgery, 577
Mathematical model of corneal surface smoothing after laser refractive surgery, 267

Refractory pseudophakic macular edema
Intravitreal triamcinolone for refractory pseudophakic macular edema, 246

Renal cell carcinoma
Spontaneous regression of choroidal metastasis from renal cell carcinoma, 911

Reports
How to write a brief report for the AJO (editorial), 737

Resection
Tuberculous granuloma managed by full thickness eye wall resection, 93

Restrictive myopathy
Botulinum A toxin for restrictive myopathy of thyroid-related orbitopathy: effects on intraocular pressure, 427

Retina
Correlation between retinal abnormalities and intracranial abnormalities in the shaken baby syndrome (letter), 745
Reproducibility and clinical application of a newly developed stabilized retinal laser Doppler instrument, 356
White spot syndromes of the retina: a hypothesis based on the common genetic hypothesis of autoimmune/inflammatory disease, 376

Retinal angioma
Retinal angioma in a patient with Cowden disease, 400

Retinal arterial macroaneurysm
Macular hole formation following ruptured retinal arterial macroaneurysm, 487
Ruptured retinal arterial macroaneurysm associated with a stage IV macular hole, 907

Retinal arterial wall plaque
Retinal arterial wall plaques in Susac syndrome, 483
Retinal capillary hemangioma
Retinal capillary hemangioma treatment by indocyanine green-mediated photorheosmosis, 395

Retinal detachment
Modified technique to create retinal detachment during macular translocation surgery, 105
Prevalence and characteristics of foveal retinal detachment without macular hole in high myopia, 338
Removal of the internal limiting membrane under perfluorocarbon liquid to treat macular-hole-associated retinal detachment, 894
Retinal detachment rate after vitrectomy for retained lens material after phacoemulsification, 183
Retinal tear and detachment after transpupillary photothermolysis for choroidal melanoma, 729
Spondylo-ocular syndrome: a new entity with crystalline lens malformation, cataract, retinal detachment, osteoporosis, and platyspondyly, 681
Submacular deposition of triamcinolone acetonide after triamcinolone-assisted vitrectomy, 243

Retinal endovascular surgery
Retinal endovascular surgery and intravitreal triamcinolone acetonide for central vein occlusion in young adults, 382

Retinal laser Doppler instrument
Reproducibility and clinical application of a newly developed stabilized retinal laser Doppler instrument, 356

Retinal necrosis
Progressive outer retinal necrosis in immunocompetent patients treated initially for optic neuropathy with systemic corticosteroids, 551

Retinal nerve
Combined use of frequency doubling perimetry and polarimetric measurements of retinal nerve fiber layer in glaucoma detection, 160

Retinal nerve fiber
Axonal loss after traumatic optic neuropathy documented by optical coherence tomography, 406
Evaluation of the glaucomatous damage on retinal nerve fiber layer thickness measured by optical coherence tomography, 513
Optical coherence tomography measurement of nerve fiber layer thickness and the likelihood of a visual field defect (letter), 744

Retinal pigment epithelium
Foveal congenital hypertrophy of the retinal pigment epithelium in the setting of geographic atrophy from age-related macular degeneration, 120
Toxic effect of indocyanine green on retinal pigment epithelium related to osmotic effects of the solvent (letter), 258
Trypan blue not toxic for retinal pigment epithelium in vitro, 234

Retinal tear
Retinal tear and detachment after transpupillary photothermolysis for choroidal melanoma, 729

Retinal thickness
Early postoperative retinal thickness changes and complications after vitrectomy for diabetic macular edema, 14

Retinal vein occlusion
Lipemia retinalis associated with branch retinal vein occlusion, 539
Recurrent retinal vein occlusion in a patient with increased plasma levels of histidine-rich glycoprotein, 232

Retinopathy
Severe proliferative retinopathy progressing to blindness in a Japanese woman with Takayasu disease, 722
Treatment of anemia in the diabetic patient with retinopathy and kidney disease, 740

Retinopathy of prematurity
Bilateral presumed endogenous Candida endophthalmitis and stage 3 retinopathy of prematurity, 747

Retinotomy
Continuous outflow devices for macular translucency with 360-degree retinotomy, 241
Macular translocation with 360-degree retinotomy for management of age-related macular degeneration with subfoveal choroidal neovascularization (letter), 748

Retrolubar anesthesia
Ipsilateral globe penetration and transient contralateral amaurosis following retrolubar anesthesia, 251

Retrolubar circulation
Rate of progression of glaucoma correlates with retrolubar circulation and intracocular pressure, 664

Riboflavin/ultraviolet-A
Riboflavin/ultraviolet-A–induced collagen crosslinking for the treatment of keratoconus, 620

Risk stratification
Self-administered health questionnaire for the preoperative risk stratification of patients undergoing cataract surgery, 599

Sarcoidosis
Tonic pupil and sarcoidosis, 417

Scanning laser polarimetry
Abnormalities of scanning laser polarimetry associated with pituitary adenoma, 565

Scleral tunnel incision
Episcleral pseudomelanoma: late complication of scleral tunnel incision, 387

Scleritis
Scleritis and other ocular side effects associated with pamidronate disodium, 219

Sclerokeratitis
Herpes zoster virus sclerokeratitis and anterior uveitis in a child following varicella vaccination, 415

Severe proliferative retinopathy
Severe proliferative retinopathy progressing to blindness in a Japanese woman with Takayasu disease, 722

Shaken baby syndrome
Correlation between retinal abnormalities and intracranial abnormalities in the shaken baby syndrome (letter), 745

Short wavelength automated perimetry
Corneal thickness measurements and visual function abnormalities in ocular hypertensive patients, 131
Structure and function evaluation (SAFE): II. Comparison of optic disk and visual field characteristics, 148

Silicone tube intubation
Migration and apparent disappearance of silicone tube following treatment of nasolacrimal duct obstruction, 905
Spondylo-ocular syndrome
Spondylo-ocular syndrome: a new entity with crystalline lens malformation, cataract, retinal detachment, osteoporosis, and platyspondyly, 681

Spontaneous venous pulsations
Effect of optic disk edema on spontaneous venous pulsations, 706

Spontaneous vitreofoveal separation
Resolution of diabetic cytoid macular edema associated with spontaneous vitreofoveal separation, 116

Squamous cell carcinoma
Topical mitomycin C for conjunctival–corneal squamous cell carcinoma (letter), 122

Strabismus
Myopic strabismus fixus: a mitochondrial myopathy, 720

Subacute sclerosing panencephalitis
Acute multifocal placoid pigment epitheliopathy-like lesion as an early presentation of subacute sclerosing panencephalitis, 103

Subfoveal choroidal neovascularization
Limited macular translocation for the management of subfoveal choroidal neovascularization after photodynamic therapy, 109
Macular translocation with 360-degree retinotomy for management of age-related macular degeneration with subfoveal choroidal neovascularization (letter), 748
Photodynamic therapy with verteporfin for subfoveal choroidal neovascularization in children, 900
Selective occlusion of subfoveal choroidal neovascularization in pathologic myopia using a new technique of ingrowth site treatment, 857
Surgery for subfoveal choroidal neovascularization in toxoplasmic retinochoroiditis, 386

Superior limbic keratoconjunctivitis
New surgical treatment for superior limbic keratoconjunctivitis and its association with conjunctivochalasis, 303

Superior oblique myokymia
Three-dimensional eye movement analysis of superior oblique myokymia, 563

Surgery
Cataract after glaucoma filtration surgery, 231
Is there an association between cataract surgery and age-related macular degeneration? Data from three population-based studies, 849
Long-term anatomic and visual acuity outcomes after initial anatomic success with macular hole surgery, 633
Modified technique to create retinal detachment during macular translocation surgery, 105
New surgical treatment for superior limbic keratoconjunctivitis and its association with conjunctivochalasis, 303
Self-administered health questionnaire for the preoperative risk stratification of patients undergoing cataract surgery, 599
Surgery for subfoveal choroidal neovascularization in toxoplasmic retinochoroiditis, 386
Surgical management of anterior chamber epithelial cysts, 309
Vitreous opacities and outcome of vitreous surgery in patients with familial amyloidotic polyneuropathy, 188

Susac syndrome
Retinal arterial wall plaques in Susac syndrome, 483

Sutures
Clinico-microbiological correlation of suture-related graft infection following penetrating keratoplasty, 89
Congenital iris coloboma repair using a modified McCannel suture technique, 730

Syphilis
Corticosteroid-induced modulation of acute syphilitic posterior placoid chorioretinitis, 891

Tacrolimus
Topical tacrolimus treatment of atopic eyelid disease, 297

Takayasu disease
Severe proliferative retinopathy progressing to blindness in a Japanese woman with Takayasu disease, 722

Tear film stability analysis
New method for tear film stability analysis using videokeratography, 607

Thermotherapy
Clinicopathologic findings in choroidal melanomas after failed transpupillary thermotherapy, 657
Retinal tear and detachment after transpupillary thermotherapy for choroidal melanoma, 729
Timolol 0.5%/dorzolamide 2% fixed combination
Timolol 0.5%/dorzolamide 2% fixed combination vs timolol maleate 0.5% and unoprostone 0.15% given twice daily to patients with primary open-angle glaucoma or ocular hypertension, 138
Timolol maleate 0.5% and unoprostone 0.15%
Timolol 0.5%/dorzolamide 2% fixed combination vs timolol maleate 0.5% and unoprostone 0.15% given twice daily to patients with primary open-angle glaucoma or ocular hypertension, 138

Tonic pupil
Tonic pupil and sarcoidosis, 417

Tono-Pen XL
Accuracy of intraocular pressure by Tono-Pen XL over amniotic membrane patching in rabbits, 536

Toxoplasmic retinochoroiditis
Surgical for subfoveal choroidal neovascularization in toxoplasmic retinochoroiditis, 386

Toxoplasmosis
Ophthalmic outcomes after prenatal and postnatal treatment of congenital toxoplasmosis, 779

Transplantation
Anterior segment indocyanine green angiography in pterygium surgery with conjunctival autograft transplantation, 71

Transpupillary thermotherapy
Clinicopathologic findings in choroidal melanomas after failed transpupillary thermotherapy, 657
Retinal tear and detachment after transpupillary thermotherapy for choroidal melanoma, 729

Trauma
Axonal loss after traumatic optic neuropathy documented by optical coherence tomography, 406
Cataract after minor trauma in a young patient with an iris-fixated intraocular lens for high myopia, 890
Correlation between retinal abnormalities and intracranial abnormalities in the shaken baby syndrome (letter), 745
Posttraumatic endogenous Nocardia endophthalmitis, 915
Traumatic hyphemas in children secondary to corporal punishment with a belt, 719

Travoprost
Comparison of latanoprost, bimatoprost, and travoprost in patients with elevated intraocular pressure: a 12-week, randomized, masked-evaluator multicenter study, 688
Conjunctival hyperemia in healthy subjects after short-term dosing with latanoprost, bimatoprost, and travoprost, 314

Triamcinolone acetonide
Intravitreal triamcinolone for refractory pseudophakic macular edema, 246
Retinal endovascular surgery and intravitreal triamcinolone acetonide for central vein occlusion in young adults, 382
Submacular deposition of triamcinolone acetonide after triamcinolone-assisted vitrectomy, 243

Trypan blue
Epiretinal membrane surgery assisted by trypan blue, 909
Trypan blue not toxic for retinal pigment epithelium in vitro, 234
Trypan blue-assisted peeling of the internal limiting membrane during macular hole surgery, 903

Tuberculous granuloma
Tuberculous granuloma managed by full thickness eye wall resection, 93

UL54 gene
Genotypic analysis of cytomegalovirus retinitis poorly responsive to intravenous ganciclovir but responsive to the ganciclovir implant, 20
UL97 gene
Genotypic analysis of cytomegalovirus retinitis poorly responsive to intravenous ganciclovir but responsive to the ganciclovir implant, 20

Ulcers
Lecithin-bound superoxide dismutase in the treatment of noninfectious corneal ulcers, 613

Ultrasound
Ultrasound findings in orbital hydatid cysts, 568

Ultraviolet-A/riboflavin
Riboflavin/ultraviolet-A–induced collagen crosslinking for the treatment of keratoconus, 620

Unoprostone
Timolol 0.5%/dorzolamide 2% fixed combination vs timolol maleate 0.5% and unoprostone 0.15% given twice daily to patients with primary open-angle glaucoma or ocular hypertension, 138

Uveal effusion
Uveal effusion and angle-closure glaucoma in primary pulmonary hypertension, 705

Uveitis
Arthritis and uveitis in children: a pediatric rheumatology perspective, 879
Factors related to severe uveitis at diagnosis in children with juvenile idiopathic arthritis in a screening program, 757
Herpes zoster virus sclerokeratitis and anterior uveitis in a child following varicella vaccination, 415
Intermediate uveitis in childhood preceding the diagnosis of multiple sclerosis: a 13-year follow-up, 885
Laser flare photometry and complications of chronic uveitis in children, 763
Special considerations in the evaluation and management of uveitis in children, 867
Surgical management of cataracts in children with juvenile rheumatoid arthritis–associated uveitis, 772
Visual loss associated with pediatric uveitis in English primary and referral centers, 676

Uveitis-glaucoma-hyphema syndrome
Unusual case of uveitis-glaucoma-hyphema syndrome, 561

Varicella vaccination
Herpes zoster virus sclerokeratitis and anterior uveitis in a child following varicella vaccination, 415

Vascular endothelial growth factor
Relation of diabetic macular edema to cytokines and posterior vitreous detachment, 321

Vasoreactivity
Reduced cerebrovascular blood flow velocities and vasoreactivity in open-angle glaucoma, 144

Verteporfin
Clinicopathologic study after submacular removal of choroidal neovascular membranes treated with verteporfin ocular photodynamic therapy, 343
Neutrophil margination as a possible mechanism for verteporfin infusion-associated pain, 549
Photodynamic therapy using verteporfin for choroidal neovascularization in angiod streaks, 1
Photodynamic therapy with verteporfin for subfoveal choroidal neovascularization in children, 900

Videokeratography
New method for tear film stability analysis using videokeratography, 607

Viscoelastic
Experimental study of viscoelastic in the prevention of corneal endothelial desiccation injury from vitreous-fluid-air exchange, 641

Visual acuity
Computerized method of visual acuity testing: adaptation of the early treatment of diabetic retinopathy study testing protocol, 194
Improved functional visual acuity after punctual occlusion in dry eye patients, 704
Long-term anatomic and visual acuity outcomes after initial anatomic success with macular hole surgery, 633
Measured visual acuity of fellow eyes as a prognostic factor in macular hole surgery, 493

Visual field
Characteristics of visual field progression in patients with normal-tension glaucoma with optic disk hemorrhages, 499
Neural networks to identify glaucomatous visual field progression, 49

Visual field defects
Acute occipital demyelinating lesion appearing as an infarct on diffusion magnetic resonance imaging, 96
Detection of glaucomatous visual field defect by nonconventional perimeter, 35
Optical coherence tomography measurement of nerve fiber...
layer thickness and the likelihood of a visual field defect (letter), 744

Structure and function evaluation (SAFE): II. Comparison of optic disk and visual field characteristics, 148

Validity of a new disk grading scale for estimating glaucomatous damage: correlation with visual field damage, 749

Visual function

Assessment of visual function after corneal transplantation: the Quality of Life and Psychometric Assessment after Corneal Transplantation (Q-PACT) Study, 785

Corneal thickness measurements and visual function abnormalities in ocular hypertensive patients, 131

Visual Function Index

Visual Function Index (VF-14) in exudative age-related macular degeneration of long duration, 206

Visual loss

Prevalence of organic neuro-ophthalmic disease in patients with functional visual loss, 670

Visual loss associated with pediatric uveitis in English primary and referral centers, 676

Vitrectomy

Combined phacoemulsification, intraocular lens implantation, and vitrectomy for eyes with coexisting cataract and vitreoretinal pathology, 291

Early postoperative retinal thickness changes and complications after vitrectomy for diabetic macular edema, 14

Frequency of epithelial debridement during diabetic vitrectomy, 553

Optical coherence tomography for evaluating diabetic macular edema before and after vitrectomy, 169

Retinal detachment rate after vitrectomy for retained lens material after phacoemulsification, 183

Small-size pediatric vitrectomy wide-angle contact lens, 236

Submacular deposition of triamcinolone acetonide after triamcinolone-assisted vitrectomy, 243

Vitreofoveal separation

Resolution of diabetic cytoid macular edema associated with spontaneous vitreofoveal separation, 116

Vitreoretinal disease

Combined phacoemulsification, intraocular lens implantation, and vitrectomy for eyes with coexisting cataract and vitreoretinal pathology, 291

Vitreous

Experimental study of viscoelastic in the prevention of corneal endothelial desiccation injury from vitreal fluid-air exchange, 641

Newly designed self-retaining contact lens for vitreous surgery, 544

Vitreous hemorrhage

Leber congenital amaurosis associated with optic disk neovascularization and vitreous hemorrhage, 723

Vitreous opacities

Vitreous opacities and outcome of vitreous surgery in patients with familial amyloidotic polyneuropathy, 188

White spot syndromes

Are acute zonal occult outer retinopathy and the white spot syndromes (AZOOR complex) specific autoimmune diseases (editorial), 380

White spot syndromes of the retina: a hypothesis based on the common genetic hypothesis of autoimmune/inflammatory disease, 376

Wide-angle contact lens

Small-size pediatric vitrectomy wide-angle contact lens, 236

X-linked congenital stationary night blindness

Novel CACNA1F mutation in a French family with the incomplete type of X-linked congenital stationary night blindness, 733

ABSTRACT INDEX

A

Age-related macular degeneration
Alzheimer's Aβ-peptide is deposited at sites of complement activation in pathologic deposits associated with aging and age-related macular degeneration, 423

Autologous transplantation of genetically modified iris pigment epithelial cells: a promising concept for the treatment of age-related macular degeneration and other disorders of the eye, 928

Drusen proteome analysis: an approach to the etiology of age-related macular degeneration, 924

AIPL1
Leber congenital amaurosis gene product AIPL is localized exclusively in rod photoreceptors of the adult human retina, 262

Alzheimer disease
Alzheimer's Aβ-peptide is deposited at sites of complement activation in pathologic deposits associated with aging and age-related macular degeneration, 423

Generation of antibodies specific for β-amyloid by vaccination of patients with Alzheimer disease, 423

Amblyopia
Phakic intraocular lens to correct high myopic amblyopia in children, 927

Amyloid beta peptide
Alzheimer's Aβ-peptide is deposited at sites of complement activation in pathologic deposits associated with aging and age-related macular degeneration, 423

Generation of antibodies specific for β-amyloid by vaccination of patients with Alzheimer disease, 423

Amyloidosis
Glucoma in primary amyloidosis: a fortuitous or causative association?, 264

Novel localized amyloidosis associated with lactoferrin in the cornea, 126

Anesthesia
Comparison of topical and retrobulbar anesthesia for trabeculectomy, 264

Animal models
Regeneration in the mammalian optic nerve, 126

Antibodies
Generation of antibodies specific for β-amyloid by vaccination of patients with Alzheimer disease, 423

Antipsychotic drugs
Cataract occurrence with antipsychotic drugs, 423

Aqueous humor
Vascular endothelial growth factor is increased in aqueous humor of glaucomatous eyes, 927

Astigmatism
Epi-LASEK for the correction of myopia and myopic astigmatism, 425

Atrial fibrillation
Occurrence of hemispheric and retinal ischemia in atrial fibrillation compared with carotid stenosis, 129

B

Blepharospasm
Blepharospasm: recent advances, 574

Bone marrow
Bone marrow-derived stem cells can differentiate into retinal cells in injured rat retina, 924

Botulinum toxin B
Ptosis as a remote effect of therapeutic botulinum toxin B injection, 574

C

Carotid stenosis
Carotid Endarterectomy Trialists' Collaboration. Analysis of pooled data from the randomised controlled trials of endarterectomy for symptomatic carotid stenosis, 926

Occurrence of hemispheric and retinal ischemia in atrial fibrillation compared with carotid stenosis, 129

Cataracts
Cataract occurrence with antipsychotic drugs, 423

Post-transplant complications. Cataracts in patients receiving stem cell transplantation after conditioning with total body irradiation, 126

Radiation-induced cataract in astronauts and cosmonauts, 423

CD4+T cells
HIV preferentially infects HIV-specific CD4+ T cells, 127

Central retinal artery occlusion
Prognosis of central retinal artery occlusion: local intraarterial fibrinolysis versus conservative treatment, 264

Cerebral hemispheres
Occurrence of hemispheric and retinal ischemia in atrial fibrillation compared with carotid stenosis, 129

Perception of verticality after recent cerebral hemispheric stroke, 128

Cerebrospinal fluid
Vitamin A in the cerebrospinal fluid of patients with and without idiopathic intracranial hypertension, 753

CHAMPS trial
MRI predictors of early conversion to clinically definite MS in the CHAMPS placebo group, 424

Children
Outcome of lamellar keratoplasty for limbal dermoids in children, 751

Phakic intraocular lens to correct high myopic amblyopia in children, 927

Prospective analysis of pediatric pseudophakia: myopic shift and postoperative outcome, 927

Chlorpromazine
Cataract occurrence with antipsychotic drugs, 423

Choroid
Peripheral nervous system in gyrate atrophy of the choroid and retina with hyperornithinemia, 263

Chronic relapsing inflammatory optic neuropathy
Chronic relapsing inflammatory optic neuropathy, 925
Clinical trials
Carotid Endarterectomy Trialists' Collaboration. Analysis of pooled data from the randomised controlled trials of endarterectomy for symptomatic carotid stenosis, 926
Continuing unethical conduct of underpowered clinical trials, 571
Informing clinical trial participants about study results, 129
Cogan's syndrome
Autoantibodies to inner ear and endothelial antigens in Cogan's syndrome, 262
Cornea
Artificial cornea: towards a synthetic onlay for correction of refractive error, 265
Methicillin-resistant Staphylococcus aureus and methicillin-resistant Staphylococcus epidermidis infections in the cornea, 573
Novel localized amyloidosis associated with lactoferrin in the cornea, 126
Corneal flap
Factors that affect corneal flap thickness with the Hansotome microkeratome, 425
Corneal transplantation
Preexisting and postoperative glaucoma in repeated corneal transplantation, 752
Reactivation and donor-host transmission of Herpes simplex virus after corneal transplantation, 751
Cycloptorsion
Strabismus surgery for large-angle cycloptorsion after macular translocation surgery, 129
Cystoid macular edema
Latanoprost and clinically significant cystoid macular edema after uneventful phacoemulsification and intraocular lens implantation, 926
Cytomegalovirus retinitis
Safety study of oral valganciclovir maintenance treatment of cytomegalovirus retinitis, 263
Diabetes mellitus
Incidence of sight-threatening retinopathy in patients with type 2 diabetes in the Liverpool Diabetic Eye Study: a cohort study, 925
Drusen
Drusen proteome analysis: an approach to the etiology of age-related macular degeneration, 924
Elderly
Homonymous visual field defects and stroke in an older population, 425
Electronic data
Future of electronic data, 571
Endarterectomy
Carotid Endarterectomy Trialists' Collaboration. Analysis of pooled data from the randomised controlled trials of endarterectomy for symptomatic carotid stenosis, 926
Epi-LASEK
Epi-LASEK for the correction of myopia and myopic astigmatism, 425
Ethics
Continuing unethical conduct of underpowered clinical trials, 571
Working towards ethical management of genetic testing, 754
Eye dominance
Effects of monocular viewing and eye dominance on spatial attention, 127
Eyelids
Sebaceous carcinoma of the eyelids treated by Mohs micrographic surgery: report of nine cases with review of the literature, 130
Fibrinolysis
Prognosis of central retinal artery occlusion: local intraarterial fibrinolysis versus conservative treatment, 264
Fibrous dysplasia
Normal vision despite narrowing of the optic canal in fibrous dysplasia, 573
Fractionated stereotactic radiotherapy
Fractionated stereotactic radiotherapy for the treatment of optic nerve sheath meningiomas: preliminary observations of 33 optic nerves in 30 patients with historical comparison to observation with or without prior surgery, 575
Gene therapy
Potential long-term inhibition of ocular neovascularization by recombinant adeno-associated virus-mediated secretion gene therapy, 127
Genetic testing
Working towards ethical management of genetic testing, 754
Genomics
Computational/functional genomics approach for the enrichment of the retinal transcriptome and the identification of positional candidate retinopathy genes, 754
Glaucoma
Best practice treatment algorithm for primary open-angle glaucoma: implications for U.S. ophthalmology practice, 264
Cost analysis of glaucoma medications: a 3-year review, 573
Glaucoma in primary amyloidosis: a fortuitous or causative association?, 264
Neuroradiologic screening in normal-pressure glaucoma: study results and literature review, 265
Preexisting and postoperative glaucoma in repeated corneal transplantation, 752
Vascular endothelial growth factor is increased in aqueous humor of glaucomatous eyes, 927
Gyrate
Peripheral nervous system in gyrate atrophy of the choroid and retina with hyperornithemia, 263
Hansotome microkeratome
Factors that affect corneal flap thickness with the Hansotome microkeratome, 425
Health care
Role of the institutional review board in quality improvement: a survey of quality officers, institutional review board chairs, and journal editors, 753
Hereditary infantile hemiparesis
Hereditary infantile hemiparesis, retinal arteriolar tortuosity, and leukoencephalopathy, 925

Herpes simplex virus
Reactivation and donor-host transmission of Herpes simplex virus after corneal transplantation, 751

Homonymous visual field defects
Homonymous visual field defects and stroke in an older population, 425

Hospital
Commercial filming of patient care activities in hospitals, 262

Human immunodeficiency virus
HIV preferentially infects HIV-specific CD4+ T cells, 127

Hyperornithemia
Peripheral nervous system in gyrate atrophy of the choroid and retina with hyperornithemia, 263

Hypertension
Vitamin A in the cerebrospinal fluid of patients with and without idiopathic intracranial hypertension, 753

Idiopathic intracranial hypertension
Vitamin A in the cerebrospinal fluid of patients with and without idiopathic intracranial hypertension, 753

Institutional review board
Role of the institutional review board in quality improvement: a survey of quality officers, institutional review board chairs, and journal editors, 753

Intraocular lens
Latanoprost and clinically significant cystoid macular edema after uneventful phacoemulsification and intraocular lens implantation, 926
Phakic intraocular lens to correct high myopic amblyopia in children, 927
Posterior continuous curvilinear capsulorrhexis with and without optic capture of the posterior chamber intraocular lens in the absence of vitrectomy, 751

Intraocular lymphoma
Relevance of intraocular involvement in the management of primary central nervous system lymphomas, 755

Iris
Incidence of iris colour change in latanoprost treated eyes, 422

Iris pigment epithelial cells
Autologous transplantation of genetically modified iris pigment epithelial cells: a promising concept for the treatment of age-related macular degeneration and other disorders of the eye, 928

Ischemic syndromes
Comparison of risk factors in patients with transient and prolonged eye and brain ischemic syndromes, 424

Keractectomy
Laser-assisted subepithelial keractectomy versus photorefractive keractectomy for the correction of myopia: a prospective comparative study, 572

Keratoplasty
Outcome of lamellar keratoplasty for limbal dermoids in children, 751

Keratocan
Lactoferrin
Novel localized amyloidosis associated with lactoferrin in the cornea, 126

Lamellar keratoplasty
Outcome of lamellar keratoplasty for limbal dermoids in children, 751

Laser in situ keratomileusis
Informal satisfaction survey of 200 patients after laser in situ keratomileusis, 572
Penetrating keratoplasty using tissue from a donor with previous LASIK surgery, 265
Two cases of a penetrating keratoplasty with tissue from a donor who had undergone LASIK surgery, 265

Laser-assisted subepithelial keractectomy
Epi-LASEK for the correction of myopia and myopic astigmatism, 425
Laser-assisted subepithelial keractectomy versus photorefractive keractectomy for the correction of myopia: a prospective comparative study, 572

Latanoprost
Incidence of iris colour change in latanoprost treated eyes, 422
Latanoprost and clinically significant cystoid macular edema after uneventful phacoemulsification and intraocular lens implantation, 926

Leber congenital amaurosis
Leber congenital amaurosis gene product AIPL is localized exclusively in rod photoreceptors of the adult human retina, 262

Leber hereditary optic neuropathy
Leber hereditary optic neuropathy: a nuclear solution of a mitochondrial problem, 422
Rescue of a mitochondrial deficiency causing Leber hereditary optic neuropathy, 422

Leukoencephalopathy
Hereditary infantile hemiparesis, retinal arteriolar tortuosity, and leukoencephalopathy, 925

Limb dermoids
Outcome of lamellar keratoplasty for limbal dermoids in children, 751

Local intraarterial fibrinolysis
Prognosis of central retinal artery occlusion: local intraarterial fibrinolysis versus conservative treatment, 264

Lymphoma
Relevance of intraocular involvement in the management of primary central nervous system lymphomas, 755

Macula
Profile of the genes expressed in the human peripheral retina, macula, and retinal pigment epithelium determined through serial analysis of gene expression (SAGE), 924

Macular translocation surgery
Strabismus surgery for large-angle cyclotorsion after macular translocation surgery, 129

Magnetic resonance imaging
MRI predictors of early conversion to clinically definite MS in the CHAMPS placebo group, 424
Meningiomas
Fractionated stereotactic radiotherapy for the treatment of optic nerve sheath meningiomas: preliminary observations of 33 optic nerves in 30 patients with historical comparison to observation with or without prior surgery, 575

Methicillin-resistant Staphylococcus aureus
Methicillin-resistant Staphylococcus aureus and methicillin-resistant Staphylococcus epidermidis infections in the cornea, 573

Microkeratome
Factors that affect corneal flap thickness with the Hansotome microkeratome, 425

Mitochondrial deficiency
Leber hereditary optic neuropathy: a nuclear solution of a mitochondrial problem, 422
Rescue of a mitochondrial deficiency causing Leber hereditary optic neuropathy, 422

Mohs micrographic surgery
Sebaceous carcinoma of the eyelids treated by Mohs micrographic surgery: report of nine cases with review of the literature, 130

Monocular viewing
Effects of monocular viewing and eye dominance on spatial attention, 127

Multiple sclerosis
Application of the new McDonald criteria to patients with clinically isolated syndromes suggestive of multiple sclerosis, 128
MRI predictors of early conversion to clinically definite MS in the CHAMPS placebo group, 424

Myopia
Epi-LASEK for the correction of myopia and myopic astigmatism, 425
Laser-assisted subepithelial keratectomy versus photorefractive keratectomy for the correction of myopia: a prospective comparative study, 572

Neovascularization
Potential long-term inhibition of ocular neovascularization by recombinant adeno-associated virus-mediated secretion gene therapy, 127

Ocular morbidity
Measuring the burden of ocular morbidity, 754

Open-angle glaucoma
Best practice treatment algorithm for primary open-angle glaucoma: implications for U.S. ophthalmology practice, 264

Optic canal
Normal vision despite narrowing of the optic canal in fibrous dysplasia, 573

Optic nerve
Fractionated stereotactic radiotherapy for the treatment of optic nerve sheath meningiomas: preliminary observations of 33 optic nerves in 30 patients with historical comparison to observation with or without prior surgery, 575
Regeneration in the mammalian optic nerve, 126

Optic neuropathy
Chronic relapsing inflammatory optic neuropathy, 925

Patient care
Best practice treatment algorithm for primary open-angle glaucoma: implications for U.S. ophthalmology practice, 264
Commercial filming of patient care activities in hospitals, 262

Penetrating keratoplasty
Penetrating keratoplasty using tissue from a donor with previous LASIK surgery, 265
Two cases of a penetrating keratoplasty with tissue from a donor who had undergone LASIK surgery, 265

Phacoemulsification
Latanoprost and clinically significant cystoid macular edema after uneventful phacoemulsification and intraocular lens implantation, 926

Photoreceptors
Leber congenital amaurosis gene product AIPL is localized exclusively in rod photoreceptors of the adult human retina, 262

Phakic intraocular lenses
Laser-assisted subepithelial keratectomy versus photorefractive keratectomy for the correction of myopia: a prospective comparative study, 572

Posterior chamber
Posterior continuous curvilinear capsulorrhexis with and without optic capture of the posterior chamber intraocular lens in the absence of vitrectomy, 751

Posterior continuous curvilinear capsulorrhexis
Posterior continuous curvilinear capsulorrhexis with and without optic capture of the posterior chamber intraocular lens in the absence of vitrectomy, 751

Pseudophakia
Prospective analysis of pediatric pseudophakia: myopic shift and postoperative outcome, 927

Ptosis
Ptosis as a remote effect of therapeutic botulinum toxin B injection, 574

Quality improvement
Role of the institutional review board in quality improvement: a survey of quality officers, institutional review board chairs, and journal editors, 753

Radiation
Radiation-induced cataract in astronauts and cosmonauts, 423

Radiotherapy
Fractionated stereotactic radiotherapy for the treatment of optic nerve sheath meningiomas: preliminary observations of 33 optic nerves in 30 patients with historical comparison to observation with or without prior surgery, 575

Recombinant adeno-associated virus-mediated secretion gene therapy
Potential long-term inhibition of ocular neovascularization by recombinant adeno-associated virus-mediated secretion gene therapy, 127
Refractive error
Artificial cornea: towards a synthetic onlay for correction of refractive error, 265

Retina
Leber congenital amaurosis gene product AIPL is localized exclusively in rod photoreceptors of the adult human retina, 262
Peripheral nervous system in gyrate atrophy of the choroid and retina with hyperornithinemia, 263
Profile of the genes expressed in the human peripheral retina, macula, and retinal pigment epithelium determined through serial analysis of gene expression (SAGE), 924

Retinal arteries
Hereditary infantile hemiparesis, retinal arteriolar tortuosity, and leukoencephalopathy, 925
Retinal arterial changes correlate with cerebral small-vessel disease, 574

Retinal artery occlusion
Comparison of risk factors in patients with transient and prolonged eye and brain ischemic syndromes, 424
Prognosis of central retinal artery occlusion: local intraarterial fibrinolysis versus conservative treatment, 264

Retinal blood vessels
Shadows cast by retinal blood vessels mapped in primary visual cortex, 425

Retinal cells
Bone marrow-derived stem cells can differentiate into retinal cells in injured rat retina, 924

Retinal ischemia
Occurrence of hemispheric and retinal ischemia in atrial fibrillation compared with carotid stenosis, 129

Retinal pigment epithelium
Profile of the genes expressed in the human peripheral retina, macula, and retinal pigment epithelium determined through serial analysis of gene expression (SAGE), 924

Retinal transcriptome
Computational/functional genomics approach for the enrichment of the retinal transcriptome and the identification of positional candidate retinopathy genes, 754

Retinopathy
Computational/functional genomics approach for the enrichment of the retinal transcriptome and the identification of positional candidate retinopathy genes, 754
Incidence of sight-threatening retinopathy in patients with type 2 diabetes in the Liverpool Diabetic Eye Study: a cohort study, 925

Retrobulbar anesthesia
Comparison of topical and retrobulbar anesthesia for trabeculectomy, 264

Scientific literature
Access to scientific literature, 571

Sebaceous carcinoma
Sebaceous carcinoma of the eyelids treated by Mohs micrographic surgery: report of nine cases with review of the literature, 130

Serial analysis of gene expression
Profile of the genes expressed in the human peripheral retina, macula, and retinal pigment epithelium determined through serial analysis of gene expression (SAGE), 924

Skull base surgery
Ophthalmological outcome after orbital entry during anterior and anterolateral skull base surgery, 752

Small-vessel disease
Retinal arterial changes correlate with cerebral small-vessel disease, 574

Spatial attention
Effects of monocular viewing and eye dominance on spatial attention, 127

Staphylococcus aureus
Methicillin-resistant Staphylococcus aureus and methicillin-resistant Staphylococcus epidermidis infections in the cornea, 573

Staphylococcus epidermidis
Methicillin-resistant Staphylococcus aureus and methicillin-resistant Staphylococcus epidermidis infections in the cornea, 573

Stem cells
Bone marrow-derived stem cells can differentiate into retinal cells in injured rat retina, 924
Post-transplant complications. Cataracts in patients receiving stem cell transplantation after conditioning with total body irradiation, 126

Strabismus
Strabismus surgery for large-angle cyclotorsion after macular translocation surgery, 129

Striate cortex lesions
Analysis of pathways mediating preserved vision after striate cortex lesions, 753

Stroke
Homonymous visual field defects and stroke in an older population, 425
Perception of verticality after recent cerebral hemispheric stroke, 128

Subjective visual vertical
Perception of verticality after recent cerebral hemispheric stroke, 128

Surgery
Ophthalmological outcome after orbital entry during anterior and anterolateral skull base surgery, 752
Sebaceous carcinoma of the eyelids treated by Mohs micrographic surgery: report of nine cases with review of the literature, 130

Total body irradiation
Post-transplant complications. Cataracts in patients receiving stem cell transplantation after conditioning with total body irradiation, 126

Trabeculectomy
Comparison of topical and retrobulbar anesthesia for trabeculectomy, 264

Transient ischemic attacks
Comparison of risk factors in patients with transient and prolonged eye and brain ischemic syndromes, 424

Transplantation
Autologous transplantation of genetically modified iris pigment epithelial cells: a promising concept for the treatment of age-related macular degeneration and other disorders of the eye, 928
Post-transplant complications. Cataracts in patients receiving
stem cell transplantation after conditioning with total body irradiation, 126
Preexisting and postoperative glaucoma in repeated corneal transplantation, 752.
Reactivation and donor–host transmission of Herpes simplex virus after corneal transplantation, 751

Vaccinations
Generation of antibodies specific for β-amyloid by vaccination of patients with Alzheimer disease, 423
Valganciclovir
Safety study of oral valganciclovir maintenance treatment of cytomegalovirus retinitis, 263
Vascular endothelial growth factor
Vascular endothelial growth factor is increased in aqueous humor of glaucomatous eyes, 927

Verticality
Perception of verticality after recent cerebral hemispheric stroke, 128

Vision
Analysis of pathways mediating preserved vision after striate cortex lesions, 753
Visual cortex
Shadows cast by retinal blood vessels mapped in primary visual cortex, 425
Visual field defects
Homonymous visual field defects and stroke in an older population, 425
Vitamin A
Vitamin A in the cerebrospinal fluid of patients with and without idiopathic intracranial hypertension, 753
Vitrectomy
Posterior continuous curvilinear capsulorrhexis with and without optic capture of the posterior chamber intraocular lens in the absence of vitrectomy, 751
